SAFETY DATA SHEET

1. Identification

Product identifier Technescan MAG3™ Kit for the Preparation of Technetium Tc 99m Mertiatide

Other means of identification

SDS number TMAG3

Synonyms Tc99m MAG3 * Tc99m Mertiatide * (N-[N-[N-(Mercaptoacetyl)glycyl]glycyl]-glycine benzoate

(ester))

Recommended use The content of this kit as sold is non radioactive. Technescan MAG3™ is a kit for the preparation

of technetium Tc 99m mertiatide, a diagnostic radiopharmaceutical. It is supplied as a sterile, nonpyrogenic, lyophilized powder. Once mixed together the content becomes radioactive. After reconstitution with sterile sodium pertechnetate Tc 99m injection, the technetium Tc 99m

mertiatide (disodium[N-[N-(Mercaptoacetyl) glycyl]glycyl] glycinato (2-) -

N,N',N",S']oxotechnetate (2-)) which is formed is suitable for intravenous administration.

Technetium Tc 99m mertiatide is a renal imaging agent for use in the diagnosis of congenital and acquired abnormalities, renal failure, urinary tract obstruction, and calculi in adults and pediatric patients. (See Pediatric Use.) It is a diagnostic aid in providing renal function, split function, renal angiograms, and renogram curves for whole kidney and renal cortex.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Supplier

Company name Curium US LLC
Address 2703 Wagner Place

Maryland Heights, MO 63043

United States

Telephone number Customer Service 888-744-1414

Chemtrec 800-424-9300

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Sensitization, skin Category 1

OSHA defined hazards Not classified.

Label elements

Signal word Warning

Hazard statement May cause an allergic skin reaction.

Precautionary statement

Prevention Avoid breathing dust. Wear protective gloves. Contaminated work clothing must not be allowed

out of the workplace.

Response If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention.

Wash contaminated clothing before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise

classified (HNOC)

None known.

Technescan MAG3™ Kit for the Preparation of Technetium Tc 99m Mertiatide 947003 Version #: 01 Revision date: - Issue date: 06-December-2018

3. Composition/information on ingredients

Mixtures

Chemical name	CAS number	%
SODIUM TARTRATE	868-18-8	65.4
LACTOSE	63-42-3	32.7
BETIATIDE	103725-47-9	1.6
STANNOUS CHLORIDE	7772-99-8	0.2

Composition comments

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Inhalation

Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact

Remove contaminated clothing immediately and wash skin with soap and water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Eye contact

Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses.

Get medical attention if irritation develops and persists.

Ingestion

Rinse mouth. Get medical attention if symptoms occur. Never give anything by mouth to a victim

who is unconscious or is having convulsions.

Most important symptoms/effects, acute and May cause an allergic skin reaction. Dermatitis. Rash.

delayed

The following adverse reactions have been reported: nausea, vomiting, wheezing, dyspnea, itching, rash, tachycardia, hypertension, shaking chills, fever, and seizure.

Indication of immediate

Provide general supportive measures and treat symptomatically. Keep victim under observation.

Use fire-extinguishing media appropriate for surrounding materials.

medical attention and special treatment needed

Symptoms may be delayed.

General information

IF exposed or concerned: Get medical advice/attention. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing

None known.

media

Specific hazards arising from

the chemical

Special protective equipment and precautions for firefighters

Fire fighting equipment/instructions

Specific methods

General fire hazards

During fire, gases hazardous to health may be formed.

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH

(approved or equivalent) and full protective gear.

Move containers from fire area if you can do so without risk. Use water spray to cool unopened containers.

Use standard firefighting procedures and consider the hazards of other involved materials.

No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up

Stop the flow of material, if this is without risk. If possible, place material in a suitable hermetically sealed lead container. Following product recovery, flush area with water. For waste disposal, see section 13 of the SDS.

Environmental precautions

Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Do not handle until all safety precautions have been read and understood. Avoid breathing dust. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. When using, do not eat, drink or smoke. Wear protective clothing, including chemical safety goggles and chemical-resistant waterproof gloves. Wash hands and forearms after handling. Observe good industrial hygiene practices. Protect from light.

Discard after eight (8) hours from the time of preparation. After reconstitution, handling time should be kept to a minimum and appropriate shielding should be used. Avoid direct handling by using remote manipulation tools, syringe shields and tongs.

Conditions for safe storage, including any incompatibilities

Store at controlled room temperature 20-25°C (68-77°F) both prior to and following reconstitution. Discard after eight (8) hours from the time of preparation. Store locked up. Store in original tightly closed container. Keep container tightly closed. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

Storage and disposal of product should be controlled in a manner which is in compliance with the appropriate regulations of the federal or state government agency authorized to license the use of this radionuclide.

8. Exposure controls/personal protection

Occupational exposure limits

Components	Туре	Value Value	
STANNOUS CHLORIDE (CAS 7772-99-8)	PEL	2 mg/m3	
US. ACGIH Threshold Limit Value	es		
Components	Type	Value	
STANNOUS CHLORIDE (CAS 7772-99-8)	TWA	2 mg/m3	
US. NIOSH: Pocket Guide to Che	mical Hazards		
Components	Туре	Value	
STANNOUS CHLORIDE	TWA	2 mg/m3	

(CAS 7772-99-8) **Biological limit values**

Appropriate engineering

controls

No biological exposure limits noted for the ingredient(s).

If engineering measures are not sufficient to maintain concentrations of dust particulates below the Occupational Exposure Limit (OEL), suitable respiratory protection must be worn. Ventilation should be sufficient to effectively remove and prevent buildup of any dusts or fumes that may be generated during handling or thermal processing.

Individual protection measures, such as personal protective equipment

If contact is likely, safety glasses with side shields are recommended. Eye/face protection

Skin protection

Hand protection Chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.

Skin protection

Other Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

No personal respiratory protective equipment normally required. Respiratory protection Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance Small, dry white crystals clinging to inside of 10 mL glass vial.

Physical state Solid. Crystals. **Form** White. Color Odorless. Odor

Odor threshold Not available. pH Not available.

Melting point/freezing point 32 °F (0 °C) reconstituted.

Initial boiling point and boiling 212 °F (100 °C) reconstituted.

Other information

Explosive properties Not explosive. **Oxidizing properties** Not oxidizing.

10. Stability and reactivity

ReactivityThe product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability Instability caused by exposure to light.

Possibility of hazardous

reactions

Will not occur.

Conditions to avoid Avoid dust formation. Light. Contact with incompatible materials.

Incompatible materials Strong oxidizing agents.

Hazardous decomposition

products

Carbon oxides. Hydrogen chloride.

11. Toxicological information

Information on likely routes of exposure

Inhalation Inhalation of dusts may cause respiratory irritation.

Skin contact May cause an allergic skin reaction.

Eye contact Direct contact with eyes may cause temporary irritation.

Ingestion May cause discomfort if swallowed.

Symptoms related to the physical, chemical and toxicological characteristics

Direct contact with eyes may cause temporary irritation. May cause skin irritation. May cause an

allergic skin reaction. Dermatitis. Rash.

The following adverse reactions have been reported: nausea, vomiting, wheezing, dyspnea,

itching, rash, tachycardia, hypertension, shaking chills, fever, and seizure.

Information on toxicological effects

Acute toxicity May cause an allergic skin reaction.

irritation

Respiratory or skin sensitization

Respiratory sensitization Not available.

Skin sensitization May cause an allergic skin reaction.

Germ cell mutagenicity For the content of kit as sold prior to reconstitution (non radioactive): No data available to indicate

product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity For the content of kit as sold prior to reconstitution (non radioactive): This product is not

considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

NTP Report on Carcinogens

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Not regulated.

Reproductive toxicity For the content of kit as sold prior to reconstitution (non radioactive): Due to lack of data the

classification is not possible. For TechneScan MAG3™ Reconstituted with Sodium Pertechnetate Tc-99m: May cause harm to breastfed babies. Technetium Tc-99m is excreted in human milk

during lactation, therefore, formula-feedings should be substituted for breast-feedings.

Specific target organ toxicity -

single exposure

Due to partial or complete lack of data the classification is not possible.

Specific target organ toxicity -

repeated exposure

Due to partial or complete lack of data the classification is not possible.

Aspiration hazardDue to partial or complete lack of data the classification is not possible.

Chronic effects For the content of kit as sold prior to reconstitution (non radioactive): Prolonged inhalation may be

harmful.

12. Ecological information

Ecotoxicity There are no data on the ecotoxicity of this product.

Persistence and degradability No data is available on the degradability of any ingredients in the mixture.

Bioaccumulative potential No data available.

Mobility in soil No data available.

Other adverse effects An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

13. Disposal considerations

Disposal instructions For the content of kit as sold prior to reconstitution (non radioactive): Dispose in accordance with

all applicable regulations. If medical waste is involved, such as blood, blood products, or sharps, the waste must be handled as a biohazard and disposed of accordingly. If not a biohazard, consult

local, state and federal regulations for proper disposal.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Dispose of in accordance with local regulations.

Contaminated packaging

Dispose in accordance with all applicable regulations.

14. Transport information

DOT

Not regulated as dangerous goods.

IATA

Not regulated as dangerous goods.

IMDG

Not regulated as dangerous goods.

Transport in bulk according to

Not applicable.

Annex II of MARPOL 73/78 and

the IBC Code

15. Regulatory information

US federal regulations

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication

Standard, 29 CFR 1910.1200.
